

QUESTIONS AND ANSWERS FOR BODY SCANNER AS OF 12/15/21

1. What is the current system that needs to be removed? **Nuctech Model HT2000GA**
2. Stationary platform is mentioned in the RFP. Our product has a moving solid steel platform on the 6ft base that scans the inmate in just 8 seconds. Would this be an issue? **A solid steel platform is required.**
3. Is the temperature screening for Covid or do you need a heat map of the inmate? **Primarily COVID screening.**
4. The RFP mentions experience in phone service and visitor communication systems, would our years of security experience be adequate? **This statement was included incorrectly. Please disregard.**
